OUR
SUGGESTION

Google Workspace — Base (₹116.82 per ID / month) is the lowest-cost option from a major provider for up to 20 IDs; choose **Starter** if the firm wants more storage and Gemini AI. Prefer Outlook?

Microsoft 365 Business Basic (₹200.60) gives the largest mailbox for the price. GoDaddy email is cheapest in year 1 but roughly doubles on renewal and is email-only.

05 Domain on GoDaddy + email on Google Workspace

Yes — this is a common, recommended setup. The domain stays with GoDaddy; only the email runs on Google.
